NBH#: 35020

List Price: \$22

Kills viruses, bacteria, algae, fungi, mold, yeast, and spores. Effective against coronavirus, SARS, Ebola virus, cold and flu virus, MRSA, strep, and more.

Instructions:

Clean and remove all loose deposits on surfaces before spraying SAN19. Apply SAN19 in a continuous light coat- DO NOT SOAK SURFACES. Surfaces should be warmer than 35°F and less than 100°F. Let SAN19 remain on surfaces for at least 10 minutes. Allow to air dry. After use, reseal container and store in a cool dry area away from direct sunlight.

- For industrial use only. Use personal protection equipment as required and keep out of reach of children. Must rinse and wipe clean all food contact surfaces after SAN19 applied. Not for use to clean food ware, glasses, utensils, or dishes. Not for use in medical sterilization processes. Do not breathe spray. Do not mix with vinegar or acidic cleaners. Read caution before use.

Ingredients:

Ammonium Chloride, Inert Ingredients. Contains 0% Chlorine.

*Price while supplies last, subject to change.
