### Yale nexTo

Ideal for retrofit projects, Yale nexTouch Exit Trim is the perfect way to upgrade an existing exit device for easy, key-free access.

- Offers easy upgrade from mechanical exit trim to key-free access management
- Compatible with many pushpad exit devices, including competitor models
- Available in touchscreen and pushbutton keypad options, in a variety of finishes and lever designs
- Privacy mode, 9V battery power backup, and many more convenient features

### ASSA ABLOY Rockwood Hands-Free Pulls

## ASSA ABLOY

The AP1140 Arm Pull can be mounted above a pre-existing door pull for a quick hands-free addition, or can be used independently. Applications: Restrooms, entrances, corridors, any door with a

The FP1230 Foot Pull can be used with two different movements.

1. Place your foot on the top grip and pull the door open.
2. Put your toe underneath and pull the door towards you.

The AP1007 Arm Pull with Plate features rounded corners on the backplate, the groove on the inside of this pull comfortably accepts your arm to open the door. This pull can be used with the
