

JEN-60 DRAWER NOTCHER

FEATURES

- Designed to notch and drill the underside of a drawer box for mounting undermount drawer slides
- Pneumatic cutter & drill stroke by foot pedal operation.
- Cutter stroke and drill speed are adjustable for optimum finish results
- Drill will automatically position for both left and right drawer notches by activating a switch in the fence
- Machine will not cycle unless a drawer is up against the switch for safe operation
- Insert knife cutterhead with solid carbide inserts for optimum finish results and long tool life
- 2 1/4" (57mm) wide cutter allows for a wide range of undermount slides
- Comes with insert cutterhead with inserts and 1/4" (6.3mm) solid carbide drill bit
- Capable of notching up to 220 drawer boxes (both left and right) per hour.

SPECIFICATIONS

- **Main cutter motor:** 3 HP
- **Notch dimensions:** 2 1/4" (57mm) x 0.5" high
- **Cutter diameter:** 10"
- **Drill diameter:** 1/4"
- **Table size:** 49" x 22"
- **Table height from floor:** 32"
- **Dust port:** 4" (670 CFM requirement)
- **Compressed air required:** 90 – 100 PSI
- **Electrics:** 230/60 or 460/3/60
- **Machine dimensions:** 48" x 37 3/4" x 39 3/4"
- **Machine weight:** 506 lbs.

Information about the Freedom CNC Router on other side.

SCM will donate \$500 to the
Semper Fi & America's Fund
for every Freedom machine sold until the end of the year.

Engineered and manufactured in Colorado Springs, CO. Available as a 4' x 8' and 5' x 12' flat table. Most competitive pricing in the market. Short production lead times of 4-6 weeks. Service & parts handled domestically. No payments until 2021* - read more on other side)

Freedom 4 x 8 CNC Router

About the CNC:

The Freedom 4x8 is a flat-table 3-Axis CNC machining center engineered and manufactured by Diversified Machine Systems in Colorado Springs, CO. North American innovation and quality is on full display in this composition specifically assembled for the woodworking industry.

The machine features a 4' by 8' phenolic worktable separated into four independent vacuum zones. A 10 HP Hiteco electrospindle and 9-spindle vertical drilling unit provide the necessary power and flexibility needed for a wide spectrum of projects. Work with precision using the integrated tool heightsensor and electronically controlled reference pins. The ability to add up to 8 tools on the machine gives the user added flexibility in their production schedule. Automatic tool change cycles mean no interaction is needed from the operator during the program.

The compact layout of the machine makes this platform perfect for any shop, big or small.

STANDARD FEATURES

- 4' x 8' Phenolic Worktable
- 4 Independent Vacuum Zones
- X/Y/Z FAGOR Controlled AC Servo Motor System
- X/Y/Z Ballscrew Drive System
- Up to 1440 in/min Vectoral Traverse Speed
- 10 HP Hiteco Electrospindle
- 8-Position Automatic Tool Change Rack

- 9-spindle Hiteco Vertical Drilling Unit
- Pneumatic Up/Down Dust Extraction Hood
- 10 HP Becker VTLF 2.250 Vacuum Pump
- FAGOR 8070 PLC
- Touchscreen Display on Mobile Control Console
- Windows OS
- Network & USB Ports

Freedom 5 x 12 CNC Router

About the CNC:

The Freedom 5x12 is a flat-table 3-Axis CNC machining center engineered and manufactured by Diversified Machine Systems in Colorado Springs, CO. North American innovation and quality is on full display in this composition specifically assembled for the woodworking industry.

The machine features a 5' by 12' phenolic worktable separated into four independent vacuum zones. A 10 HP Hiteco electrospindle and 9-spindle vertical drilling unit provide the necessary power and flexibility needed for a wide spectrum of projects. Work with precision using the integrated tool height sensor and electronically controlled reference pins. The under-bridge mounted 10-position tool changer boosts the capabilities of this model into the next level. Tool changes can occur in less than 10 seconds! Automatic tool change cycles mean no interaction is needed from the operator during the program.

The compact layout of the machine makes this platform perfect for any shop, big or small.

STANDARD FEATURES

- 5' x 12' Phenolic worktable
- 4 independent vacuum zones
- X/Y/Z FAGOR Controlled AC Servo Motor System
- X/Y Rack & Pinion Drive System
- Dual Servo Drive X-Axis
- Up to 2120 in/min Vectoral Traverse Speed
- 10 HP Hiteco Electrospindle
- 10-Position Gantry-Mounted Automatic Tool Change Rack

- 9-spindle Hiteco Vertical Drilling Unit
- Pneumatic Up/Down Dust Extraction Hood
- Two 10 HP Becker VTLF 2.250 Vacuum Pump
- FAGOR 8070 PLC
- Touchscreen Display on Mobile Control Console
- Windows OS
- Network & USB Ports
