Saving You Time & Effort

Bringing rooms together: Architectural Sliding Door System TopLine Grant SD / HD /XHD

- A best-selling, versatile, and practical system.
- Use to optimize space in a variety of applications.
- Easy and convenient to use. Top mount or side-mount.
- Options for standard & heavy doors, up to 500 lbs.
- Soft opening and closing available.

Gentle movement:

Minimal opening force provides practical convenience.

Barrier-free, no trip hazard:

No profiles on the floor. A small floor guide is all it takes to keep the door straight.

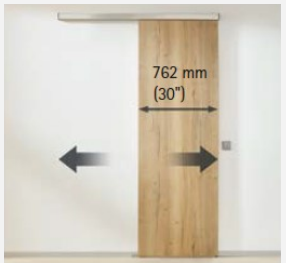

End stop & activator are easy to fit:

Screws onto track, no pre-drilling necessary. Positioning easily adjusted.

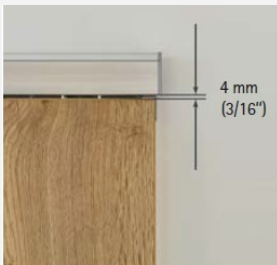

Takes up very little space:

Silent System can be inserted into the profile with a minimum of space.

Narrow doors, full convenience:

Soft open & close capabilities for doors w/a min. width.

Design perfectly complemented:

Narrow reveals can be produced by the low head profile system.

Well balanced design:

Silent System invisibly integrated in the profile.

The Right System for Your Door Weight • Wall or Header Mount • Choose Your Gap-Design • Standard or Soft-Close

SD, HD, and XHD are available in Basic Kits, Low Profile Kits, or with fascia, and extra track is also available. Many lengths are available to achieve the perfect fit for your door.

Your NBH hardware team is here to help you find the best sliding door system for your project.
