EKASILK PLUS The most advanced system for sanding curved and profiled surfaces:

EKASILK PLUS System is also extremely well suited for flat panels and any other surface requiring hand sanding or finishing. Sponges are washable and reusable. The hook & loop system is designed for EKASAND pneumatic sanding machines. These sponges yield superior life compared to conventional sheets and discs and increase sanding efficiency by up to 50%. Thanks to foam backing, they adapt to contours, curves, and edges.

- > Reduce Hand Sanding
- > Work Profiles with Ease
- > Consistent Sealer Sand
- > Save Time & Labor
- > Simplify Employee Tasks

G*GRASS® TIOMOS HINGE SYSTEM

The Tiomos system offers a 3-dimensional adjustable soft-close mechanism, which is fully integrated and concealed in the hinge arm. It is also available in self-close. The product range provides continuous, smooth closing action regardless of the door size, weight, or materials. The *Impresso* is a tool-free version of the hinge.
