

NBH Cavity Sliders Stock Program

Pocket Frame Kit Sets

The **CS Cavity Slider** pocket door frame is structurally robust due to its construction from aluminum extrusions. Supplied as a kitset, it is easy to assemble and install. The pocket frame accommodates 1-3/8" and 1-3/4" doors and can be cut down to size. It can be upgraded to SofStop soft close. This set meets the Type 1 construction code without any combustible materials. In addition to its space saving attributes, it can be used for architectural feature openings.

NBH #	Cavity Sliders #	Description
2667	CSS4K3068	Pocket Frame, Kit Set to suit 3'0" x 6'8" door
2669	CSS4K3080	Pocket Frame, Kit Set to suit 3'0" x 8'0" door
1420	CSS4K4080	Pocket Frame, Kit Set to suit 4'0" x 8'0" door

CaviTracks

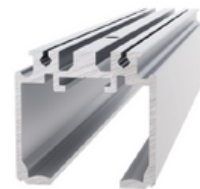

The **CS CaviTrack** is a smooth running low profile track system that's perfect for a range of opening types including pocket, barn, partition, and multi-sliding applications. The clip-on fascia is suitable for use in barndoor and partition applications. Can be upgraded to SoftStop soft close.

Features:

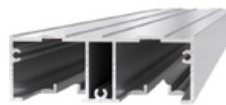

- Track is high-quality, heavy-duty extruded aluminum
- Smooth running track
- Notched for simple carriage insertion
- 304 stainless steel components available
- Can be configured to suit bi-parting or corner-meeting door set-ups

Carriage Packs

Cavity Sliders Carriages feature large diameter wheels with precision ground bearings to ensure smooth running longevity. Cavity Sliders Mounting Plates feature the CarriSnap quick release system which allows the door to be installed or removed easily. Hanger bolts allow for 5/16" vertical height adjustment using the wrench provided with each pack.
